Certificate

for saved greenhouse gas emissions and climate protection

TqthUxpi g

saves with atmosfair 5222 kg CO₂-equiv.

Greenhouse gas emissions.

This corresponds to circa 100 % of the warming effect of pollutants caused by 2 flights from Hamburg to Longyearbyen - Svalbard.

Your contribution

of 69.00 Euro goes to emission saving projects chosen by atmosfair. These are subject to the rules and procedures set out in the Clean Development Mechanism (CDM) of the Kyoto protocol and the "Gold Standard" established by the international environmental NGO community and are controlled by UN-accredited organisations. The current project-portfolio can be viewed at www.atmosfair.info.

Our guarantee

atmosfair guarantees that the saved emissions will be certified by the responsible authorities and that corresponding certificates will be permanently stored in the cancellation account at the registry of the German Federal Environmental Agency (Umweltbundesamt). This is the formal proof that the emissions are permanently saved, that they can no longer be released in the atmosphere and that no other person can get hold of these emission savings.
